

Complete hospital bassinet with clear crib and mobile stand. Safe, easy-to-clean newborn care station for maternity and nursery units.

This complete bassinet pairs a clear, tilt-adjustable crib with a mobile epoxy-coated steel stand on castors, providing clear all-round visibility of the newborn. The smooth, wipe-clean surfaces and rounded edges support infection control and safe handling, while the sturdy base ensures stability. Designed for maternity wards, nurseries and neonatal observation areas.
