

Large double-door dangerous-drugs cabinet, 765 x 700 x 290mm, in steel. High-capacity secure storage for controlled medicines.

This large double-door dangerous-drugs cabinet measures 765 x 700 x 290mm and offers high-capacity, lockable storage for controlled and scheduled medicines. The steel construction with twin-door secure closure and internal shelving suits busy hospital pharmacies and ward drug rooms, while the wall-mountable, powder-coated body provides durability and easy cleaning in line with regulatory requirements.
