

Compact mobile 50-litre Clini Bin with foot-pedal lid. Epoxy-coated steel for hands-free waste collection in tighter spaces.

This compact 50-litre Clini Bin provides hands-free clinical waste collection in a smaller footprint, built on an epoxy-coated steel body with a mobile castor base and foot-pedal lid. The no-touch operation supports infection control and the chip-resistant finish wipes clean easily, making it ideal for smaller wards, consulting rooms and treatment areas.
