

Mobile kick-about bucket stand in epoxy-coated steel on castors. Foot-manoeuvrable waste/fluid holder. Bucket sold separately.

This kick-about bucket stand holds a bucket within an epoxy-coated steel ring frame on low castors, designed to be moved by foot for hands-free fluid or waste collection during procedures. The chip-resistant finish wipes clean and resists disinfection. Please note the bucket is sold separately. A practical aid for treatment rooms and theatres.
